MAX LOAD PER CONTAINER

190 LITER	75 KG
240 LITER	100 KG
370 LITER	150 KG
660 LITER	250 KG

GUIDELINES:

- place the containers easily accessible before collection,
- place larger and bulky objects next to the containers,
- electrical and hazardous waste must never be mixed with other waste. Place electrical and hazardous waste next to or in a separate container,
- electrical and hazardous waste must be kept separated based on their fraction,
- in order for us to collect and transport your electrical and hazardous waste, the signing of transport documents is required before collection. This is sent over digitally by us in connection with the order,
- by law, all electrical and hazardous waste must be reported to the Environmental Protection Agency. If you wish, we can report this for you against the signature of proxy approval and a fee.

THE CUSTOMER IS RESPONSIBLE FOR:

- that the transport route meets the requirements for a good working environment according to the Work Environment Act. Any steps or deviating transport route must be notified before delivery,
- equipment that is permanently damaged or contaminated will be charged to the customer. This also applies to damaged equipment in case of overload.
